## Company Purchase

Often companies choose to pre pay for several memberships for selected employees. Based on the number of memberships required, we will create a specific package based on your company's needs.

## Payroll Deduction

As an added convenience and benefit, companies may choose to enroll their employees through a payroll deduction plan. We will work with your payroll or human resources department to allow for the smooth transition from enrollment in the gym, to the timely processing of all memberships requests.

## Individual Enrollment

Upon setting up an enrollment date, employees may enjoy a company discount, while maintaining and managing their own accounts.
